

New Vendor Application

(New Vendors and/or New Products)

North Coast Co-op offers fresh, local and organic foods and select goods. We support local vendors and have been the starting point for many Humboldt area businesses to test products and build their business. We are committed to expanding food production, building capacity for producers, and filling gaps in our regional food distribution system.

If you would like to join our long list of vendors, please submit the following information and you will hear back from us within two business weeks. We are always happy to receive samples and product information at our Customer Service counter, but please be sure to include your name and contact info with any dropped off samples.
